

# Tool Steels

Tool steels from North America and Japan can be imported and available in China.

The list is as below:

AISI	JIS	Uddeholm	China Standard
O1	SKS31	O1	--
D2	SKD11	D2	Cr12MoV
A2	SKD12	A2	Cr6WV
4140	PX30	P20 Modified	40CrMo
S7	--	Compax Supreme	--
M2	SKH51	M2	--
PM Steels	--	VANADIS 10	--

## Standard Die Components

Below standard components can be imported and available in China

DANLY	DAYTON	KALLER	MISUMI	PUNCH
-------	--------	--------	--------	-------

*Note: Equivalent tool steels and standard die components from China are available at a much lower cost.*

*Due to transportation costs, importation duties, and value added taxes, imported tool steels and imported standard die components cost significantly higher than the original cost from the country of origin.*

*Additionally, the lead time to procure these materials and components will be significantly longer.*
